

# Defender<sup>™</sup> Series Base Instruction Manual

## INTRODUCTION

This manual covers installation, and maintenance instructions for the Ohaus Defender<sup>™</sup> Series Base. Please read this manual completely before installation and operation.

## **SAFETY PRECAUTIONS**

For safe and dependable operation of this product, please comply with the following precautions:

- Operate the base only under ambient conditions specified in these instructions
- Ensure that the load cell cable does not pose an obstruction or tripping hazard
- Do not operate the base in hazardous environments or unstable locations
- Do not drop loads on the base
- Do not lift the base by the top frame; always lift from the bottom frame when moving the base
- Service should only be performed by authorized personnel

## INSTALLATION

## Unpacking

Unpack and inspect the product to make sure that all components have been included. The package includes the following:

Defender<sup>™</sup> Series Base
 Weighing Pan
 Instruction Manual

When purchased as a complete Defender Series Scale, the package will also include:

Indicator
 Column Assembly (optional)

## **ASSEMBLY**

## **Weighing Pan**

Place the weighing pan securely over the rubber load pads on the top frame of the base.

# **Wiring Connections**

## DxxxHx, DxxxQx, and DxxxRx Bases

When connecting the DxxxHx, DxxxQx, or DxxxRx base to an Ohaus indicator equipped with the matching circular connector, push the base connector onto the indicator connector and turn the locking ring clockwise to lock it in place.

When connecting the DxxxHx, DxxxQx, or DxxxRx base to an indicator that does not have the matching connector, install the optional load cell cable adapter (P/N 80500736 sold separately) to the indicator using the wiring codes in Table 1. Then attach the load cell cable to the cable adapter.

**Note:** As an alternate wiring method, cut off the connector, strip the wires and attach them to the indicator using the wiring codes in Table 1.

#### **DxxxWx Bases**

Install the load cell cable to an indicator using the wiring codes in Table 1.

Note: When purchased as a Defender Series Scale, the DxxxWx base is already pre-wired to the indicator.

| TABLE 1. LOAD CLLL CONNECTION |            |  |  |  |  |
|-------------------------------|------------|--|--|--|--|
| FUNCTION                      | WIRE COLOR |  |  |  |  |
| + Excitation                  | Green      |  |  |  |  |
| - Excitation                  | Black      |  |  |  |  |
| + Signal                      | Red        |  |  |  |  |
| - Signal                      | White      |  |  |  |  |

EN-2 Defender Series Base

## Selecting the Location

To ensure accuracy, proper performance and safety, locate and operate the base on a stable, level surface. Avoid locations with rapid temperature changes or excessive dust, air currents, vibrations, electromagnetic fields or heat.

Level the base by adjusting the four leveling feet until the bubble in the level indicator is centered. A wrench may be needed to loosen the locking nut above each leveling foot. When the base is level, retighten the locking nuts up against the base to lock each foot into place.

**Note:** Ensure that the base is level each time its location is changed.

## **MAINTENANCE**

## Cleaning

The base components should be kept clean and free of excessive material build up.

 A damp cloth with water and a mild detergent may be used to wipe clean the external surfaces – do not use acids, alkalis, strong solvents or abrasive materials.

To maintain surface integrity, do not allow food particles or liquids to remain on the surface of the painted or stainless steel base frame.

• Remove the pan and use fresh water to clean the base frame surface of any food particles or liquids. Dry the base with a clean cloth or allow to air dry before replacing the pan. Repeat daily for best care.

# **Troubleshooting**

Aside from installing components and leveling adjustments, the Defender Series Base does not require any other adjustments as shipped from the factory.

Operational difficulties that may be encountered can often be traced to simple causes such as:

- Loose or incorrect wiring connections
- Obstructions to the base frame
- Unstable environments
- Incorrect calibration or setup of the indicator

If the troubleshooting section does not resolve or describe your problem, contact your authorized Ohaus service agent. For service assistance or technical support in the United States call toll-free 1-800-526-0659 between 8:00 AM and 5:00 PM EST. An Ohaus product service specialist will be available to provide assistance. Outside the USA, please visit our web site, www.ohaus.com to locate the Ohaus office nearest you.

# **TECHNICAL DATA**

## **Technical Specifications**

The technical data is valid under the following ambient conditions:

Ambient temperature: -10°C to +40 °C

Relative humidity: 10% to 90% relative humidity, non-condensing

Height above sea level: Up to 2,000m

Operability is assured at ambient temperature -10°C to +40 °C

Note: not all models may be available in your area. Check with your local Ohaus representative.

<sup>\*</sup>For leveling purposes, the feet may be extended up to an additional 15 mm.

## **Compliance**

This product conforms to the EMC directive 2004/108/EC and the Low Voltage Directive 2006/95/EC. The complete declaration of Conformity is available online at www.ohaus.com.

#### Disposal

In conformance with the European Directive 2002/96/EC on Waste Electrical and Electronic Equipment (WEEE) this device may not be disposed of in domestic waste. This also applies to countries outside the EU, per their specific requirements.

Please dispose of this product in accordance with local regulations at the collecting point specified for electrical and electronic equipment.

If you have any questions, please contact the responsible authority or the distributor from which you purchased this device.

Should this device be passed on to other parties (for private or professional use), the content of this regulation must also be related.

For disposal instructions in Europe, refer to www.ohaus.com, choose your country then search for WEEE.

Thank you for your contribution to environmental protection.

#### ISO 9001 Registration

In 1994, Ohaus Corporation, USA, was awarded a certificate of registration to ISO 9001 by Bureau Veritus Quality International (BVQI), confirming that the Ohaus quality management system is compliant with the ISO 9001 standard's requirements.

On May 21, 2009, Ohaus Corporation, USA, was re-registered to the ISO 9001:2008 standard.

#### LIMITED WARRANTY

Ohaus products are warranted against defects in materials and workmanship from the date of delivery through the duration of the warranty period. During the warranty period Ohaus will repair, or, at its option, replace any component(s) that proves to be defective at no charge, provided that the product is returned, freight prepaid, to Ohaus. This warranty does not apply if the product has been damaged by accident or misuse, exposed to radioactive or corrosive materials, has foreign material penetrating to the inside of the product, or as a result of service or modification by other than Ohaus. In lieu of a properly returned warranty registration card, the warranty period shall begin on the date of shipment to the authorized dealer. No other express or implied warranty is given by Ohaus Corporation. Ohaus Corporation shall not be liable for any consequential damages. As warranty legislation differs from state to state and country to country, please contact Ohaus or your local Ohaus dealer for further details.
